NOYCE SUMMER TEACHING AND RESEARCH INTERNSHIPS

OVERVIEW
To support science, technology, engineering, or mathematics (STEM) majors who are considering teaching early in their collegiate careers, the Education Department will sponsor a summer internship program for four rising sophomores and juniors.

Noyce summer interns will complete a 10-week on-campus internship with two distinct components:

1. Interns will serve as teaching assistants and peer mentors for local high school students taking math and science courses through Trinity’s Upward Bound program. *Upward Bound is an academic enrichment program for first-generation and low-income college students.*

2. Interns will also complete a research project in cooperation with a faculty advisor in their academic major.

QUALIFICATIONS OF SUCCESSFUL APPLICANTS
The 10-week internship is designed for rising sophomores or juniors pursuing majors* in the following fields: mathematics, the sciences (biology, chemistry, geosciences, and physics), computer science, engineering, psychology and economics.

Strong academics, a solid work ethic, and a disposition for teaching are important in the selection process. GPAs are a part of the selection process but are not the sole measure.

Previous experience working with PreK-12 students or education coursework is preferred but not required. *Per National Science Foundation guidelines, interns must be US Citizens.*

*If an applicant has not yet declared a STEM major, the selection committee will review the student’s transcript for prior coursework.*

SOURCES OF STUDENT FUNDING
Funding is provided by the Noyce Scholarship program, issued by the National Science Foundation. Interns will receive a $4,500 stipend for completing the program.

DEADLINE
Interested candidates should submit an application to the Department of Education by February 11th.

FOR MORE INFORMATION
To learn more about the Noyce Scholarship program visit [www.trinity.edu/noyce](http://www.trinity.edu/noyce) or visit the Education Department on the second floor of Storch Memorial Hall. You may also contact Shari Albright at (210) 999-7506 or shari.albright@trinity.edu.
NOYCE UNDERGRADUATE SUMMER INTERNSHIP APPLICATION

Name: ________________________________

(Intended) Major: ____________________________ Year: FY SO JR SR

I attest that the information provided in this application is accurate and truthful to the best of my understanding. I hereby apply for admission to the Noyce Scholarship program. I understand that changes in my status that might affect my participation must be reported to the Chairman of the Department of Education. This signature authorizes the use of this material, in confidence, by professional personnel of Trinity University. The National Science Foundation requires Noyce Teaching Fellows to be U.S. Citizens or Nationals. Your signature below verifies that you meet this requirement and can provide confirming documentation.

Signature: ____________________________ Date: ____________________________
1. Provide a brief summary of why you are interested in the program and why you are an ideal candidate for the internship.

2. What are your career goals and how will participating in the Noyce Summer Internship support your plans?

3. Describe any past experience (paid or volunteer) working with children or young adolescents. You may also describe any Education courses you have taken.
