

iPhone or iPod touch

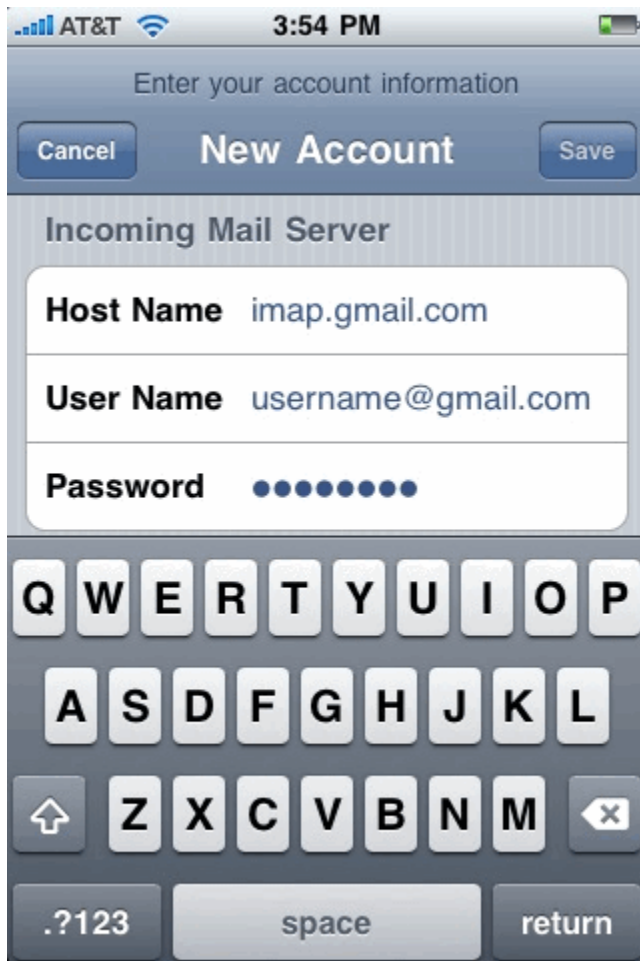

- Follow the instructions below to add Gmail to the 'Mail' app on an iPhone or iPod touch. To configure IMAP for your iPhone or iPod touch, just follow these steps:
 1. Make sure you've [enabled IMAP](#) in your main **Tmail** Account settings
 2. On your iPhone or iPod touch's home screen, tap **Settings**
 3. Tap **Mail**
 4. Tap **Add Account...**
 5. Tap **Other**
 6. Tap **Add Mail Account**
 7. Enter your account information below, being sure to use your full **Tmail** address (ex. [yourTrinityusername@trinity.edu](#))
 8. Your password must be your **Tmail password** – This is very important!!

9. Tap **Save**

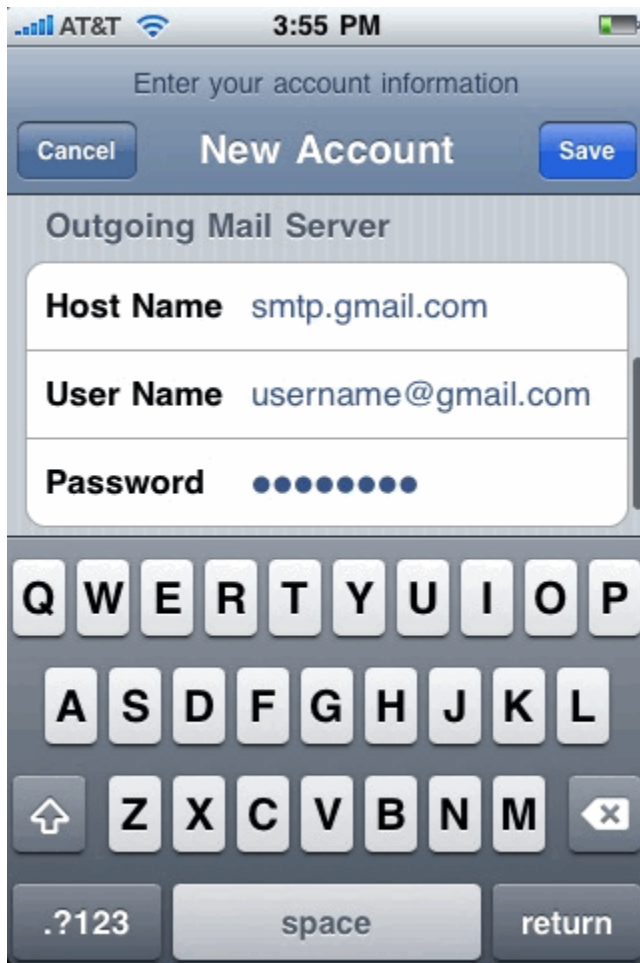

10. For Incoming Mail Server:

- Host Name is 'imap.gmail.com'
- User Name is your full **Tmail** address, including '@trinity.edu'
- Password is your **Tmail password** – This is very important!!

11. For Outgoing Mail Server:

- Host Name is 'smtp.gmail.com'
- User Name is your full **Tmail** address, including '@trinity.edu'
- Password is your **Tmail password** – This is very important!!

12. Tap **Save** – after clicking on save it may take up to a minute to authenticate.

13. And you're done! You should be able to receive your emails from Tmail to your iPhone and Ipod Touch.
